

H2Oonly

Water Based Paint Marker

Contains less than 1% Volatile Organic Compounds

Conforms to ASTM D-4236

Non-toxic*, Non-flammable, no shipping or storage concerns

The new water based marker being introduced by Marsh Shipping Supply Co., LLC is valve activated and uses a reversible bullet/chisel nib of acrylic fibers.

This marker is available in five standard colors.

H2O-WP MARKER, WATER BASED, WHITE PIGMENT

H2O-RP MARKER, WATER BASED, RED PIGMENT

H2O-YP MARKER, WATER BASED, YELLOW PIGMENT

H2O-BLP MARKER, WATER BASED, BLUE PIGMENT

H2O-BKP MARKER, WATER BASED, BLACK PIGMENT

33593 TIP, H2O, RVR, ACRY LGE FLOW BUL/CHIS (12)

Other colors are available with minimum order requirements.

The water based paint is permanent on most surfaces, including metals, plastics, wood, glass, corrugated, shrink film, etc. Dry times are dependent on humidity, ambient temperature, and substrate surface temperature, but generally range from 45 to 60 seconds.

*When used as intended
